RE: GWYNNS FALLS SEWERSHED
STRUCTURAL SEWER REHABILITATION AND
REPAIR
Stormwater Management Variance
Gwynns Falls Watershed
EPS Project I.D. M140296
EPS Tracking Number: 02-15-2082

Dear Mr. Foley:

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the repair and rehabilitation of the sanitary sewer system at numerous locations within this sewershed. Once the work is completed, the existing contours and cover conditions will be reestablished. Therefore, there will be no change in the impervious area as a result of this project.

Please contact Ed Schmaus of my staff at 410-887-3768 should you have any questions.

Very truly yours,

/signed/

Vincent J. Gardina, Director
Department of Environmental Protection
& Sustainability
